

The Worldwide Hunting and Fishing Authority™

ALASKA FISHING

Visit the bustling historic waterfront community of Ketchikan in Alaska's Inside Passage. Your hotel is filled with local native totems and artisan artifacts. In July and August, salmon fill the stream as they swim up to their birth place to spawn. Your stay includes the choice of one of several local sight-seeing options, such as a flight-seeing plane trip of the Misty Fjords Monument National Park, a tour on the crab boat from the "Deadliest Catch" television show or a guided tour of one of the native totem parks.

For the resort part your float plane departs Ketchikan, enjoy 45 minutes of breathtaking scenic aerial views of the famous Inside Passage waters to Prince of Wales Island. The 26 acre property of the resort is home to the historic Waterfall Cannery, celebrating over 100 years of incredibly productive fishing and salmon processing. Enjoy the legendary sport fishing and don't be surprised to take home more than 50 lbs of frozen wild Alaskan salmon, halibut and other fish popular at the dinner table. The friendly, professional staff will make your stay a "luxury in the wilderness!"
